

# Trade Pathways Innovation Fund

## Grant Round 2023-2024

### Guidelines

Application opening date:	Tuesday 21 February 2023
Application closing date:	Tuesday 04 April 2023 at 5:00pm AEST
Funder:	NSW Department of Education (the Department)
Application method:	Electronic lodgement of applications at <a href="https://trainingservicesnsw.smartygrants.com.au">trainingservicesnsw.smartygrants.com.au</a>
Administering entity:	Training Services NSW (TSNSW)
Enquiries:	Please direct all enquiries to: Manager, Trade Pathways Program <a href="mailto:TradePathways@det.nsw.edu.au">TradePathways@det.nsw.edu.au</a> by Tuesday 28 March 2023
Type of grant opportunity:	Open Competitive

## Principles

NSW Government agencies provide grants to a range of organisations for the purpose of providing a service to benefit the community.

Government and departmental policy objectives are achieved through collaborative delivery of projects and services funded by the grant.

The following broad principles articulate the basis for a strong funding and working relationship between the Government and all organisations that receive grant funding. These principles are applicable to all agencies and programs funded with public monies.

### Principles for the funding relationship

Value for money  
Cooperation  
Consistency  
Probity

Fairness, Integrity and Transparency  
Diversity  
Coordination

### Principles for the working relationship

Evidence-based approach  
Accountability  
Communication  
Inclusiveness

Outcomes  
Respect  
Independence

## Purpose

These Guidelines set out the requirements that the recipients must meet as beneficiaries of the Trade Pathways Innovation Fund (the Fund). The Guidelines support the Funding Agreement.

The Department will advise proponents of any changes to the Guidelines prior to the execution of their Funding Agreement and, if changes occur during the term of their Funding Agreement, prior to the implementation of such changes.

## Background

In response to the NSW Productivity Commission's 2020 Green Paper and the 2021 White Paper *Rebooting the Economy*, the NSW Government announced on 11 November 2020 the State's first trade recognition and pathways initiative, the Trade Skills Pathways Centre – now known as the Trade Pathways Program. This program is focussed on initiatives to support a robust trade workforce and sustainable skills development to drive job growth and economic prosperity.

The implementation of the Trade Pathways Program (TPP) is managed by Training Services NSW (TSNSW), a branch of the NSW Department of Education (The Department). TSNSW is responsible for government-funded vocational education and training (VET) in NSW (See Appendix A).

The Trade Pathways Program has four current areas of focus being:

- 1. Trade Pathways for Experienced Workers initiative** - The advancement of experienced but unqualified workers through a recognition of prior learning (RPL) and gap training skills assessment process.
- 2. Women in Trades Strategy and Connecting Women to Trades initiative** - New and innovative approaches to increase the representation of women in trades.

3. **Trade Pathways Innovation Fund** – Industry or occupation-specific approaches to deliver new or enhanced pathways to trade, with the exception of pathways involving an apprenticeship or traineeship training contract.

4. **Trade Skills Recognition** – Assessing and issuing Certificates of Proficiency to experienced trade workers who have the required skills and knowledge to pursue to vocation.

## Strategic Direction

The goal of the Trade Pathways Innovation Fund is aligned with and contributes to the following strategic directions:

- NSW Productivity Commission White Paper 2021 – Rebooting the economy
- Women in Trades Strategy 2021-24

### NSW Productivity Commission 2021 White Paper – *Rebooting the Economy*

Recommendation 3.2 (Section 3.3) of the 2021 White Paper is to *introduce new and more flexible pathways to trades qualifications*.

An increase in the number of qualified tradespeople is required to address skills shortages. Shortages of qualified labour is applying pressure on the economy through higher costs and lower levels of productivity. Additional pathways to trade qualifications are required to supplement the trades-related outputs of the apprenticeship and traineeship system.

Further information is available at <https://www.productivity.nsw.gov.au/white-paper>

### Women in Trades Strategy 2021-2024

The Women in Trades Strategy 2021-2024 includes three 'pillars of action' to increase the representation of women in male-dominated trades:

1. Increase the appeal of trades to raise women's level of participation.
2. Facilitate change to remove cultural and societal barriers.
3. Support women's learning to maximise vocational outcomes.

The Trade Pathways Program has commissioned a research project to determine the barriers and enablers that exist for women entering trade training and employment. The research will inform the design of behavioural interventions to increase the representation of women in non-traditional trades. Women in Trades Promising Practice Review is the first publication from the research project and is available at <https://www.nsw.gov.au/education-and-training/resources/women-trades-promising-practice-review>.

## Aim of the Trade Pathways Innovation Fund

The Trade Pathways Innovation Fund will respond to the unique skills needs of different trade sectors. It provides the opportunity to trial and test new approaches to obtaining trade qualifications which may be occupation or student specific.

The Trade Pathways Innovation Fund will enable industry-led projects to establish new pathways to trade qualification or enhance existing non-traditional pathways to trade qualification (i.e. those outside of an

apprenticeship or traineeship training contract). Establishing and enhancing these pathways will lead to an increase in qualified workers in trade occupations facing skills shortages.

Grants of up to \$500,000 (GST exclusive) will fund innovative projects that enhance existing non-traditional pathways or build new pathways to trade and trade-like qualifications. See Appendix B for a list of eligible Certificate III qualifications.

The Fund will improve the accessibility of trade training, particularly for students such as women, mature workers and school leavers. Occupation-specific pathways developed by industry will result in an uplift in students engaging with and achieving trade qualification.

## Scope of the Fund

Projects should:

- be designed in accordance with one of the following categories:
  - Establish new pathways to trade or trade-like qualifications
  - Enhance existing non-traditional pathways to trade or trade-like qualifications, making them more accessible for students and/or responsive to industry or occupation requirements
- be delivered in one or more of the Training Services NSW regions (see <https://www.nsw.gov.au/education-and-training/resources/smart-and-skilled-regions>).
- nominate trade or trade-like occupation/s and qualification/s with which the applicant has an active role, function and specialisation.
- Focus on establishing or enhancing pathways outside of traditional apprenticeship and traineeship pathways.
- nominate qualifications from the list of approved trade and trade-like qualifications (see Appendix B).
- have a delivery period of 12 months and conclude no later than May 2024.

## Objectives of the Fund

Trade Pathways Innovation Fund projects are to implement outputs related to one of the following objectives;

### **Category A Objective – Establish new pathways to trade or trade-like qualifications**

### **Category B Objective – Enhance existing non-traditional pathways to trade or trade-like qualifications, making them more accessible for students and/or responsive to industry or occupation requirements.**

Non-traditional pathways to trade or trade-like qualifications are pathways other than those involving an apprenticeship or traineeship contract.

## Eligibility Criteria

To be eligible to apply for a Grant, an organisation must be:

- A legal entity with the capacity to contract
- Currently operating in NSW
- Registered for GST and have an Australian Business Number (ABN)
- Covered by public liability insurance
- Financially viable

- One of the following entities:
  - Industry representative body
  - Industry Training Advisory Body
  - Group Training Organisations including the GTO peak body
  - Local Government partnerships or Local Government peak bodies
  - Trade Unions
  - Skills Service Organisations
  - Other organisations at the discretion of the Department

**Note:** Learners participating in a project must meet the following Smart and Skilled eligibility criteria to enrol in accredited training components:

- 15 years or older at the time of enrolment
- No longer enrolled at school
- Living or working in NSW
- Australian citizens, permanent residents, humanitarian visa holders or NZ citizens.

## Grant period

The Trade Pathways Innovation Fund projects will commence in May 2023 and conclude in May 2024. Projects are to be delivered within the funding term and not be reliant on further TSNSW funding. Projects continuing beyond the funding term are to confirm the planned funding arrangements. At the discretion of the Department, the funding amount or term for projects may be altered based on the outputs delivered, progress made towards achieving outcomes and/or funding availability.

## Grant amounts

The 2023-2024 budget for the Trade Pathways Innovation Fund is \$5,000,000 (GST exclusive). Eligible organisations can apply for up to \$500,000 (GST exclusive) to deliver a project. Organisations are to submit a maximum of one application but can nominate as a delivery partner across multiple applications.

Projects are to be delivered over a 12-month term (May 2023 to May 2024) with grants paid in three stages:

- 50% at project commencement (triggered by the execution of the Funding Agreement)
- 30% mid-point (triggered by the achievement of agreed mid-point milestones and lodgement of interim report)
- 20% at project completion (triggered by the achievement of agreed milestones and lodgement of the final project report).

**Note:** The following items are not to be funded by the grant:

- Capital equipment, capital works or capital expenses
- Operating expenses not directly related to the project
- Projects delivered outside NSW
- Retrospective funding e.g., projects that have already commenced prior to grant award
- Fundraising events
- Costs associated with accredited training that is approved for funding under Smart and Skilled
- Participants engaged in a project must not pay any fees
- Payment of wages to project participants (E.g. learners).

## Assessment criteria

Applicants must address the assessment criteria below and provide all required information in the application. Incomplete applications may be excluded from the application process at the Department's discretion. The applicant must address the following mandatory assessment criterion in the application:

### 1. A project plan including:

- Project objective (Category A or B)
- Focus ANZSCO occupation/s
- Focus qualification/s
- Aims of the project
- Project activities, outputs, milestones and timeline - projects to be comprehensive and well-defined (S.M.A.R.T) with a distinct start and finish date
- Outcome measures (i.e. KPI's, success measures)

**NOTE:** ANZSCO occupations and qualifications are listed at Appendix B. Projects incorporating training delivery must provide detail related to any units of competency proposed and whether the training is accredited or non-accredited.

**NOTE:** Applicants are to consider how the project will impact and align with other initiatives underway in the nominated trade occupation/s and qualification/s.

### 2. A stakeholder and partner engagement plan including:

- Stakeholder/s and partner/s engagement (project partners are subject to TSNSW approval)
- Stakeholder and partner communication strategy
- Marketing approach (i.e. communication platform/s and digital promotional collateral)

**NOTE:** Any partner RTO's delivering accredited training are to be Smart and Skilled training providers. Visit <https://education.nsw.gov.au/skills-nsw> to search for Smart and Skilled training providers. Another useful website is [www.training.gov.au](http://www.training.gov.au).

Costs associated with the accredited training are to be covered by the nominated RTO under Smart and Skilled funding. A Training Needs Identification (TNI) will need to be prepared by the RTO for the delivery of accredited training. If the TNI is approved via the issue of a Provider Activity Schedule (PAS), training costs will be paid directly to the RTO.

Where accredited training is an output of the project, at least three units of competency are to be undertaken. Please advise the Department if a Smart and Skilled provider with capacity to deliver the accredited training cannot be located.

### 3. Capability and capacity of the organisation to deliver the project including:

- Applicant's role, function and specialisation in relation to the nominated occupation/s and qualification/s
- Applicant's capacity and capability to successfully deliver the project (including relevant experience in delivering similar projects)
- Relevant experience and qualifications of key staff involved in project delivery
- Key challenges and risks relating to the implementation of the project and how these will be managed, treated and mitigated.

#### 4. Value for money

- How the project represents value for money (consider social, economic and environmental benefits)
- Grant amount requested
- Project budget.

Criteria	Weighting
Criteria 1 - Project plan	40%
Criteria 2 – Stakeholder and partner engagement plan	20%
Criteria 3 - Capability and capacity to deliver	20%
Criteria 4 - Value for Money	20%
TOTAL	100%

### Assessment Dates

Activity	Timeframe
Grant applications open	Tuesday 21 February 2023
Grant applications close	Tuesday 04 April 2023
Successful applicants notified	by May 2023
Notification of outcome to all applicants	by May 2023
Public announcement of grant recipients	June 2023

### How to apply

Visit [trainingservicesnsw.smartygrants.com.au](https://trainingservicesnsw.smartygrants.com.au) and select the Trade Pathways Innovation Fund application when open.

Log in or register if the organisation does not already have a current SmartyGrants account.

Complete the application and provide required supporting documentation.

Submit the application by 5.00pm AEST, Tuesday 04 April 2023.

Please allow sufficient time to complete the application and upload all necessary documents. The Department will not accept hard copy, incomplete or late applications. The application must include sufficient information and associated supporting documentation to enable the assessment panel to adequately assess the application. All applications must be submitted online via [trainingservicesnsw.smartygrants.com.au](https://trainingservicesnsw.smartygrants.com.au).

Enquiries regarding the application process can be sent to [tradepathways@det.nsw.edu.au](mailto:tradepathways@det.nsw.edu.au)

## **Application assessment and notification**

Applications will be assessed by an assessment panel against the criteria listed above. The panel consists of Departmental staff and may include representatives from other Government agencies.

The assessment panel may seek additional information from the applicant or any source regarding the applicant and application to assist in the assessment process. Applications that do not comply with the grant guidelines may be rejected or accepted at the discretion of the Department.

As part of the contract negotiation stage, the Department may seek to adjust the project funding amount and project scope.

The assessment panel will submit recommendations for endorsement by an authorised delegate. The Department will advise proponents as soon as practicable if the grant round application process is discontinued for any reason.

Decisions related to successful or unsuccessful applications remain at the Department's discretion.

The Department will advise all applicants of the outcome of their applications in writing by June 2023.

## **Successful grant applications**

Shortlisted applicants will be notified by May 2023 and are to participate in a negotiation process with the Department. Pending the outcome of negotiations, a Funding Agreement is to be executed by authorised representatives of the applicant and the Department.

## **Unsuccessful grant applications**

Unsuccessful applicants may seek feedback relating to their application. The Department will provide feedback to applicants within a reasonable timeframe.

## **Appendix A**

### **Definitions**

#### **Group Training Organisations (GTOs)**

GTOs hire apprentices and trainees and place them with host employers. The Apprenticeship Employment Network is the peak industry body representing a network of training organisations in NSW and ACT.

#### **Industry Representative Body**

An organisation that is recognised by a particular sector to be a representative body. An industry representative body could represent the interests of employees, employers or both.

#### **Industry Training Advisory Body (ITAB)**

ITABs are autonomous bodies that represent their industries on training to support vocational education and training in NSW. They advise on the training and skill needs of NSW industry sectors. Each ITAB provides streamlined, unique and timely advice to the Department of Education relating to specific industry groups.

#### **Non-traditional Pathways**

Non-traditional pathways to trade or trade-like qualifications are pathways other than those involving an apprenticeship or traineeship contract.

#### **Skills Service Organisations (SSO)**

SSOs are independent, professional service organisations that support Industry Reference Committees in their work developing and reviewing training packages.

#### **Training Services NSW (TSNSW)**

TSNSW leads strategic policy, planning, funding, regulation and advice on vocational education and training (VET) to support economic, regional and community development. TSNSW is committed to enhancing the lives of people in NSW by enabling a skilled and employable workforce that meets the evolving needs of individuals and the economy.

#### **Trade-like Qualification or Occupation**

Trade-like qualifications have similar characteristics to trades but are not required for the completion of an apprenticeship. A trade occupation requires the completion of an apprenticeship. Trade-like qualifications included in the Fund are listed at Appendix B.

## Training Services NSW Regional Areas

For the purpose of this grant, applicants may apply for a grant for any of the following TSNSW Regional Areas:

1. Sydney
2. Central Coast
3. Newcastle and Lake Macquarie
4. Illawarra
5. Richmond – Tweed
6. Southern Highlands and Shoalhaven
7. Hunter Valley (excluding Newcastle)
8. Mid North Coast
9. Coffs Harbour – Grafton
10. Capital Region
11. Central West
12. Riverina
13. New England and North West
14. Murray
15. Far and West Orana

Further information about TSNSW regions is available at

[https://www.training.nsw.gov.au/smartandskilled/regions\\_postcodes.html](https://www.training.nsw.gov.au/smartandskilled/regions_postcodes.html)
